THE LIST - 2024

Jombay asked the 1100+ women professionals across 280+ organizations who were participants of the 1000 Women Leaders Program – “Which are the women leaders you admire?” Based on their recommendations and the program committee’s view, we have published THE LIST of most admired women leaders for the second year!

This is not another media property that glorifies the success of leaders. “The LIST” in fact hands over a responsibility to its illustrious high achievers to pay it forward and inspire thousands of the working women professionals who participate in the 1000 Women Leaders Programs.

We look forward to hosting all the winners in fireside chats for the participants of this year’s 1000 Women Leaders Programs!
